Journeys with 'The Waste Land'

A visual response for Coventry
to T.S. Eliot's poem

The Waste Land is a major work of 20th century literature, written by T.S. Eliot in 1921 in the aftermath of the First World War. *Journeys with 'The Waste Land'* is an exhibition led by independent curator, Michael Tooby, and organised by the Mead in collaboration with Turner Contemporary in Margate and the Herbert Art Gallery & Museum. This exhibition explores the contemporary significance of T.S. Eliot's seminal poem and the way it has resonated with artists over the years.

November

The works selected for exhibition have been researched by a group of volunteers drawn from the Coventry area and include historical and contemporary works by artists including Peter Blake, Jacob Epstein, Elisabeth Frink, RB Kitaj, Percy Wyndham Lewis, Paul Nash, George Shaw, John Stezaker, Graham Sutherland and JMW Turner. Through these works, the exhibition explores themes within Eliot's poem of journeys and fragmentation. The selection also makes reference to Coventry's history as a city fragmented by, and rebuilt upon, the ruins of war.

Journeys with 'The Waste Land' is an exhibition led by independent curator, Michael Tooby, and organised by the Mead Gallery in collaboration with Turner Contemporary in Margate and the Herbert Art Gallery & Museum in association with Coventry Cathedral
