

## **Figure of 8**

**(Rainforest, Ecuador, sound recorded at height: 1:39m, 9.78m, 22.59m, 30.79m and 37.26m', 2015**

Mariele Neudecker

**Figure of 8** (Rainforest, Ecuador, sound recorded at height: 1:39m, 9.78m, 22.59m, 30.79m and 37.26m) is a surround sound work, aiming to create a sound experience of a night in the jungle, artificially collaged from 3 dimensional sound recordings taken from the Tiputini Biodiversity Station in the Ecuadorian rainforest at various heights, listed in the title. The sound recordings were taken as part of the development of **Hanging Gardens: Parallel Lives** in 2015, a permanent commissioned work for the new Cancer Centre at Guy's Hospital Arts Programme curated and delivered by FutureCity. This soundscape was played at Film Basel, Miami on 2nd December 2015 at Soundscape Park, New World Symphony Centre, Miami, as part of the Artist Surround Sound Project curated by David Gryn at Artprojx.
